

# Before and After

```
(->> 2  
  (range)  
  (map inc)  
  (filter odd?)  
  (first))  
  
  (first  
    (filter  
      odd?  
      (map  
        inc  
        (range 2))))))
```

# This is a Macro

```
(macroexpand  
  '(->> 2  
      (range)  
      (map inc)  
      (filter odd?)  
      (first)))  
=> (first (filter odd? (map inc (range 2))))
```
